

## JESSICA LOVE, ALLIED ASID | URBANE DESIGN

Over the last 15 years, Jessica Love has built two businesses and a non-profit focused on enriching the lives of others through interior design. Urbane Design, Jessica's flagship firm which she is principal designer, is a team of degreed interior designers who offer personalized design services for new home construction and residential remodeling. In early 2019, Jessica launched Urbane Objects, an online retail brand that sources ethical, handmade goods from local and global artisans. She will soon be adding a custom home fragrance to her online store made from ethically sourced essential oils.

When Jessica isn't designing or traveling, she operates her 501c3 Design Changes Lives, a non-profit dedicated to inspiring confidence in children through custom-designed bedrooms.
